SHOPPING MOMENTS

VISUAL RULE: LET THE REAL PACK DO THE SELLING — SUPPORTED BY TYPE, COLOUR AND A CLEAR SIXTY60 CTA.

Make the purchase journey feel real.

Creator content should show a genuine need-state, then make the Sixty60 purchase feel effortless — before the strongest assets become paid media.

CAT CREATOR

“My cat has opinions about dinner.”

Lead with the pet-parent truth and the empty-bowl tension.

LIFESTYLE

“Running low? Sorted in minutes.”

Show the convenience benefit as the natural resolution.

AMPLIFICATION

“Turn the best content into paid media.”

Use creator proof to scale the highest-converting assets.

CREATOR FORMULA: REAL NEED-STATE → SIXTY60 RESOLUTION → RETAIL CTA.

Best-fit executions: short-form social, UGC-style product stories, offer-led retargeting and creator-led replenishment reminders.

Strategic Channel Budget Split

Illustrative split optimizing conversion on-shelf while driving off-retailer acquisition and native storytelling.

** Illustrative split; final allocation should follow Sixty60 inventory, media rates and historical ROAS.*

Channel Strategic Objectives

Each budget stream directly aligns with a defined stage in the shopper conversion funnel.

Checkers Sixty60 Platform R140,000 (40%) Dominates the digital shelf within the app. Focuses on in-app banners, search sponsored products, and category-level placement to capture high-intent shoppers right at point of purchase.	Off-Retailer Digital R87,500 (25%) Drives broad reach and category demand acquisition via social ads and programmatic channels, steering qualified traffic directly into the Sixty60 ecosystem.
Retargeting Engine R52,500 (15%) Re-engages lapsed shoppers and cart abandoners using dynamic product ads, reinforcing purchase frequency and maximizing conversion probability.	Content & Influencer Storytelling R42,000 (12%) Leverages authentic creator partnerships and native storytelling to build emotional affinity and product awareness before shoppers start their search.

10 weeks. Four movements.

Build demand, test the message, concentrate on conversion, then retain the newly acquired shopper base.
